## SUMMARY

I am a Computer Science graduate from the University of Gondar, specializing in full-stack development and AI & Data Engineering. I have hands-on experience building dynamic, user-centric web applications and scalable AI-powered solutions. Currently, I am developing a **Food Recipe Website** as part of a group project, applying modern technologies such as Docker, PostgreSQL, Golang, Hasura, Vue 3, Nuxt 3, Apollo, and Tailwind CSS.

Detail-oriented and passionate about solving real-world problems, I am committed to leveraging my skills in Machine Learning, LangChain, RAG, LLMs, and full-stack web development to create efficient and innovative applications. I thrive in collaborative, fast-paced environments, continuously enhancing my technical expertise and contributing to impactful projects
